### About the Course

Criminal organizations operate everywhere, from small towns to major metro areas. On every shift drugs, currency, weapons and victims of human trafficking are on your streets. The vast majority of officers will never see it. This course is designed to enhance your ability to find what's hidden in plain sight to effectively identify, investigate and intercept illegal activity.

You will take an in-depth look at the methodology traffickers use to operate. You will examine dozens of videos, analyzing successful interdictions to help you gain the skills you need to identify concealment methods, spot key indicators of trafficking, and use effective communication and interview techniques.

**To gain a systematic approach to criminal interdiction, Calibre focuses on Six Proven Keys to Success:**

1. Spotting the Signs: Identify the key indicators of trafficking during routine traffic & pedestrian stops
2. Legal Authority: Master the legal principles of search & seizure, ensuring every action you take is legally defensible and holds up in court
3. Reading the Subject: Advanced interview techniques to detect deception and build reasonable suspicion
4. Finding What's Hidden: Become an expert at identifying vehicle concealment methods
5. Building the Case: Effectively document the details of an interdiction stop, creating a solid foundation for successful prosecution
6. Safety First: Conduct professional, safe and legally defensible stops
