

Peregrine for Command Staff

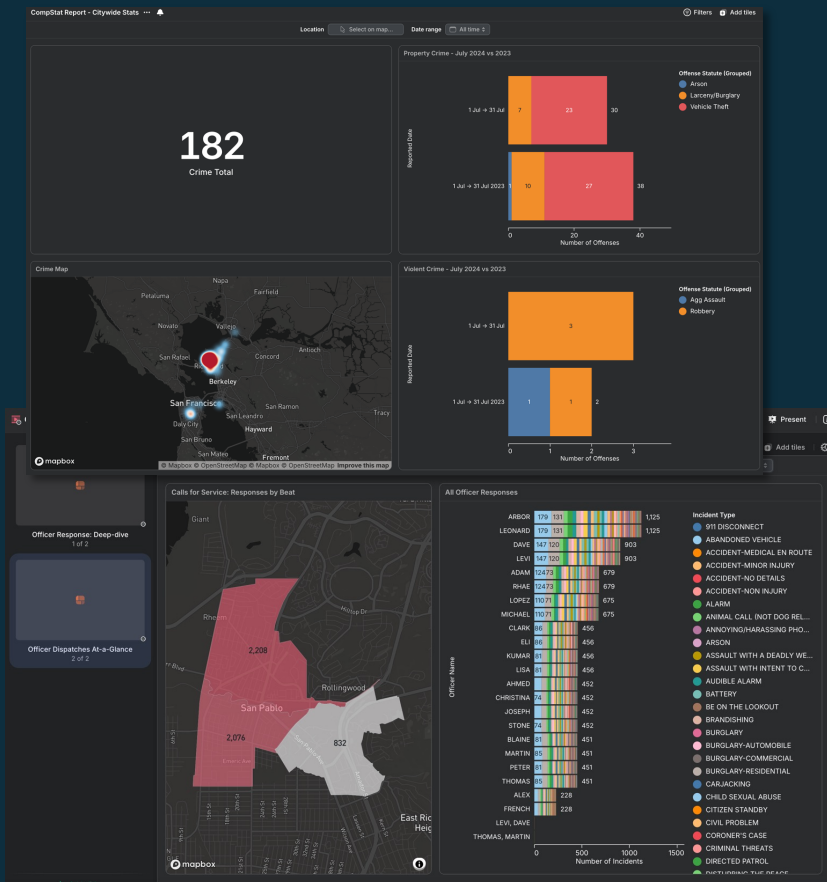

Peregrine is a unified platform that dynamically integrates all of your agency's data to create a one stop shop, allowing law enforcement to search, find, and analyze information to find key investigative leads and create needed reports.

Join us for a two (2) hour training session focused on key workflows in Peregrine, designed specifically for commanders. Learn how to leverage the platform to its fullest potential for generating insightful reports, investigating locations, and conducting thorough investigations.

During this session, you'll learn how to:

- Utilize Peregrine's **data search** capability to extract actionable intelligence for strategic decision-making
- Gain real-time insights into key performance indicators and emerging trends with Peregrine **dashboards**
- Uncover patterns and optimize resource allocation strategies using Peregrine's **mapping tools**
- Collaborate and share information across agencies with Peregrine's seamless **sharing** features

This training session includes hands-on exercises where attendees will engage with real law enforcement scenarios using Peregrine. The session will take place in a computer lab, and while computers will be provided, participants are encouraged to bring their own if available

When:

- Thursday, August 14, 9–11AM
- Thursday, August 14, 1–3PM

Where:

Academy Computer Lab
6885 NE Pleasant Valley Rd
Kansas City, MO 64119
