Human trafficking is an everyday and everywhere issue, but large-scale events that draw significant crowds can create location-specific spikes in exploitation and human trafficking. As demand for transportation services increases in these environments, the trucking, truck stop, transit and motorcoach industries are uniquely positioned to recognize indicators and take action. This session will explore the connection between major events and human trafficking and outline practical ways task forces can engage transportation stakeholders, align messaging and build cross-sector partnerships.

For any questions, please contact Sara Sefried at ssefried@tatnonprofit.org
