Peer Support Leadership Training – MO POST Certified

Chiefs and Sheriffs, Many of you have heard the words *Peer Support*—but how many truly understand the power and importance behind them?

Strong Peer Support Teams can transform the resilience and wellness of your department. The question is: how do you best support the team you already have, or prepare to build one?

Warriors Rest is dedicated to training First Responders to become Peers and assisting agencies in creating effective Peer Support Teams.

We are excited to announce a new **2-hour leadership-focused session** designed to help command staff:

- Understand leadership's role in peer support
- Foster trust and confidentiality
- Allocate financial and organizational resources effectively
- Build a culture that values mental wellness and team resilience

MO POST Certified

Date: January 15, 2026

Location: Springfield Police & Fire Training Center   2620 W Battlefield Rd, Springfield, MO 65807
