This one-day Social Media Investigations course is designed to equip law enforcement officers with the necessary skills and knowledge to gather information from publicly available sources, such as social media, websites, and other online platforms. The course will cover a range of topics, including the legal and ethical considerations involved in conducting social media investigations, the identification and evaluation of online sources, and the use of specialized tools and techniques for data analysis and verification. Participants will learn how to leverage social media platforms to identify and track criminal activity, monitor threat indicators, and gather evidence for investigations.

Throughout the training, officers will be encouraged to practice their skills through hands-on exercises and case studies, enabling them to develop a practical understanding of how to use social media and OSINT in real-world scenarios.

**TOPICS INCLUDE:**

- Legal issues regarding Social Media Investigations
- UC Social Media Accounts
- Social Media investigations  
(Facebook, Instagram, Twitter, Snapchat)
- Handling exigent circumstances on Social Media
- Execution of legal process to Social Media
